VETERAN OPS WATCH

60-Day ChatGPT Events, Programs & Flyers Index

CHAT HISTORY + SAVED RESEARCH

September 18 - November 16, 2026

Prepared for review November 16, 2026

Scope: VOW-related ChatGPT work about programs, events, flyers, official links, and site review in the 60 calendar dates from September 18 through November 16, inclusive. This index distinguishes saved, source-backed materials from unverified leads and keeps email-outreach volume separate from program counts.

Use this as a navigation and status guide. It does not certify that every historical message or every embedded attachment has been re-opened.

veteranopswatch.org | Independent community resource

At a glance

The available ChatGPT history shows a sustained VOW research and publication workflow: event roundups, source checks, organizer flyers, program directories, date-specific event pages, and site-ready review queues. The largest work product reported for this window was a 148-page combined report. Its earlier sandbox copy is not available in the current workspace or Library, so this index records what the prior completion note reported and links the recoverable source materials.

Coverage and counts

Measure	What the records show
Prior 60-day report	A prior completion note reports a 148-page PDF with 52 program records, 90 research-flyer pages, 32 event-flyer/index pages, site-ready candidates, pending-date/deadline pages, and official/application links. The PDF itself could not be reopened for an item-by-item audit.
Nov. 16 source packet	A saved 23-page PDF covers Oct. 18-Nov. 16, with 79 extracted links and selected original organizer flyers. It states that the 30-day inbox inventory was complete but not all 755 surfaced messages and attachments were read.
Oct. 16 trip handoff	Frontline Heroes Outdoors inventory: 71 records - 23 current/upcoming, 47 past, and one undated closed item. The saved handoff says prepared only, not published.
Site publication history	Some earlier VOW pages or records were published. The Frontline Heroes Outdoors handoff and several flyer/research packages remained review-only. On Nov. 15, 28 new listings and 2 existing-record updates were reported as published.
Latest Nov. 16 additions	One live VOW listing was updated (Veterans for Public Lands Defenders Corps), and one was added (SBA-VetsinTech Vets in Drones pilot). A Veterans in the Wild couples expedition was held after an automated duplicate warning.

Interpretation

Counts from separate reports use different scopes: chat threads, inbox messages, attachment references, distinct flyers, event records, and published site listings are not interchangeable. A flyer page is not necessarily one unique opportunity; one organization may have multiple programs, and one program may recur across several files.

Activity timeline

Window	Activity and status
Sep. 18-30	Established and expanded VOW program/event work. A Sept. 30 roundup was reported with 21 unique events. Research included national outdoor, wellness, and community opportunities; organizer links and deadlines were preserved where available.
Oct. 1-5	Prepared event flyers and roundups. Research mentions Warrior Expeditions 2027 Hike/Bike/Paddle, Higher Ground fishing and couples scuba, Team RWB multisport, Mogadishu Mile, Colorado Outward Bound, Heroes and Horses, Platte Rivers fly-fishing, Mission43 habitat work, Boise River cleanup, and Minnesota Heroes on the Water kayak fishing. Some entries had time-sensitive deadlines; these are historical leads and require current-source checks.
Oct. 6-12	A shared monitor report was refreshed with 11 new listings and revisions; a separate Oct. 10 pass recorded 13 leads held for review and no invitations sent. A Northeast scan added four verified events and flyers; Mentor Agility/VetEDGE cohorts were also prepared. Research directories grew from 339 to 360 organizations across work batches.
Oct. 15-17	Five events were prepared for a site addition. A Frontline Heroes Outdoors site handoff captured 71 records and instructed editors to separate current, closed, archived, and date-unknown items; its saved file says not published. A two-page roundup reported five VA/community events for Oct. 16-17.
Oct. 18-31	Multiple research and flyer packages combined event dates, official links, costs, eligibility, and source attachments. A 22-page review package and later 60-/63-page flyer review packages are recorded; status notes repeatedly held uncertain dates, duplicates, and missing registration details rather than treating them as verified.
Nov. 1-9	Research broadened to veteran and military-family programs, scholarships, VA events, adaptive sports, YMCA and faith-based programs. A Nov. 9 master packet reported 67 program/resource records and 17 date-specific events. A Nov. 7-9 publication set reported 52 site-ready listings and 38 organizer files; duplicate review remained.
Nov. 10-15	A 14-day audit identified flyer and listing review queues. A 27-flyer package and an 84-flyer audit were prepared; one report says 20 candidates and 64 held/merged/archived. Nov. 15 site work reported 28 new listings and 2 updates published, with uncertain items held.
Nov. 16	A saved 23-page report assembled selected 30-day inbox findings and original flyers. A later site review updated the Veterans for Public Lands Defenders Corps listing and added the SBA-VetsinTech Vets in Drones pilot. A different event was held for duplicate review.

Programs and events recovered from the history

Examples below are a navigation sample from available conversation summaries and saved reports, not a complete current calendar. Confirm every date, application window, fee, and place with the organizer before sharing.

Time-sensitive and dated opportunities

Answer the Call scholarship. Nov. 18, 2026 deadline was reported in the Nov. 16 packet. Confirm the current application page before sharing.

Invisible Warriors Friendsgiving. Nov. 21, 2026 in Madison, Alabama; free lunch; RSVP deadline Nov. 18. Availability was not guaranteed.

Warrior Rising University. Online entrepreneurship intensive reported for Dec. 7-8, 2026; application deadline reported as Dec. 5.

STRIDE Wounded Warrior Snow Fest. Dec. 12-13, 2026 at Jiminy Peak, Massachusetts; adaptive-sports event based on organizer flyer; capacity requires confirmation.

CyberSkills2Work. Multiple course start dates reported from Dec. 2026 through Jan. 2027; eligibility and deadlines are course-specific.

Glatfelter Fire & EMS Scholarship. Dec. 12, 2026 deadline reported for eligible fire/EMS members entering related 2027 study.

Army Women's Foundation Legacy Scholarship. Jan. 21, 2027 deadline reported; eligibility includes Army women and eligible lineal descendants.

Ongoing programs and resources

Veterans on Deck. Free therapeutic sailing trips in Charleston Harbor; current intake and availability need organizer confirmation.

VetsBoats. Therapeutic sailing/restoration on San Francisco Bay for veterans, first responders, and families; confirm schedules.

Hope In Her Eyes. One-to-one equine wellness sessions by appointment in Alabama; a flyer was received.

Boots On The Trail. Veteran ecotherapy and trail-maintenance days in Southeast Ohio; schedule described as generally every two weeks.

Mission Working Dogs. Service-dog program; the report states an organizer-reported application fee and substantial wait/cost, with grants uncertain.

I Want To Mow Your Lawn. Nationwide volunteer lawn-maintenance requests; local volunteer availability varies.

Veterans for Public Lands - Defenders Corps. Applications open through Jan. 6, 2027; two cohorts of 10-15 veterans; $500 leadership stipend and travel/lodging for required gatherings.

SBA-VetsinTech Vets in Drones pilot. National entrepreneurship pilot announced Nov. 9, 2026; application/cohort intake details were not yet published when checked.

Review queues and next actions

Review original flyer files. Several packages contain original organizer files, generated VOW informational flyers, or link-only references. Keep these types distinct and retain organizer attribution.

Resolve duplicates and date conflicts. The sources include possible duplicate records, recurring programs and multiple events from the same organizer. Match by organizer, title, date, and official URL before adding.

Recheck current details. Past event pages, expired deadlines, venue changes, application windows, costs and capacity need organizer confirmation before public promotion.

Keep uncertain entries on hold. Missing or conflicting application links, dates, eligibility, cost, travel coverage, or intake details were repeatedly flagged for review. A contact reply alone does not establish open capacity.

Separate publication from preparation. Many PDFs, spreadsheets, flyaways and site-ready packages were review-only. The Oct. 16 Frontline Heroes Outdoors handoff explicitly says not published; the Nov. 15 publication report describes 28 new listings and 2 updates; the Nov. 16 report itself says nothing was published from its PDF collection.

Finish attachment audit. The Nov. 16 30-day report says 755 inbox messages surfaced and every day was searched, but not every message body or attachment was read. Treat unreviewed records as discovery leads.

Recoverable source materials

The following saved files were located and read for this index. They provide deeper record-level details and original flyer material:

1. VOW_Programs_Events_Links_Flyers_Site_Branded_2026-11-16.pdf - 23 pages; Oct. 18-Nov. 16 selected program/event research, 79 links and organizer flyers. This is not a full audit of all 755 inbox messages.

2. VOW_Full_30_Day_Inbox_Research_2026-11-16.pdf - 30-day inbox inventory and prioritized research notes; broader inbox scope, with the same attachment-review limitation.

3. VOW_Frontline_Heroes_Outdoors_Site_Update_2026-10-16.md - 71-record content handoff with integration, archive, closed-status and duplicate-handling instructions; explicitly marked prepared only, not published.

4. VOW_Events_Email_Master_2026-10-10.xlsx - event and program contact/source records. It is a research/master workbook; contact and suppression data are not public program listings.

5. Veteran_Ops_Watch_Shared_Monitor_Report.json - evolving event/program monitor history with dated sources and status notes.

Source limitation

The 148-page combined report mentioned in the earlier ChatGPT conversation could not be recovered in the current Library or workspace. This index therefore does not pretend to reproduce every item or image in that report. The date range is corrected to exactly 60 calendar dates, September 18-November 16, 2026; a previous note used September 17-November 16, which spans 61 dates.
