Flyer Verification Audit

VETERAN OPS WATCH | Research review | October 25, 2026

Total index items	**70**
Archived embedded originals	**38**
Creative redesigns pending fact review	**4**
Organizer event/program confirmations	**3**
Other recent reference entries not verified	**25**

Verification approach

- Organizer webpage confirmation is not the same as a checked flyer image or permission to republish.
- 38 original images are locally available but marked archival, not verified current events.
- Some remote flyer assets may be inaccessible to automated retrieval; no broken-link claim was made.
- Do not republish creative redesigned graphics until every date, location, link and contact is checked.

Organizer-confirmed leads

Event/program confirmed; flyer image and republishing rights remain unverified

Operational next actions

- Check organizer flyer file in browser and save legally reusable copy.
- Confirm dates, eligibility, registration, organizer contact and graphic permissions.
- Keep 38 original/archival flyers separate from current verified opportunities.
- Publish a new verified listing only when the necessary fields and artwork are confirmed.
